### Product description

Pencil case in 100% cotton with pre-printed motifs for you to colour in. A pencil case doesn't just have to be practical – it can also be pretty, personal and cool. It all depends on how you choose to decorate the pencil case. But no matter how the pencil case ends up being decorated, you can rest assured that no one will have one quite the same – either at school or on your study course. Once you've completely decorated your pencil case, you can fill it with lots of good writing utensils – from pencils and ballpoint pens to coloured pencils and markers. If you'd like to take on another creative project after the pencil case, you can always go all the way and decorate our tote bag and shoe bag in the same style. You can also browse our wide range of ready-made textiles, where you can find both printed and non-printed tote bags, shoe bags, tea towels and T-shirts. This pencil case is just waiting to be decorated – whether you prefer to do it with textile markers or textile paint. But before you start, it's a good idea to place a layer of paper, plastic or cardboard between the layers so that the colour does not rub off on the back. Once dry, heat-set the motifs on the pencil case with an iron to make them last.
